Subject:- Submission of estimates for District Fund Works.

Reference:-Letter No.7141 dated the 7th March 1928, from the Superintending Engineer, Shimoga Circle.

Submitted to the Third Member of Council.

2. The Superintending Engineer has brought to notice that estimates for works which are sent to the President, District Board, Hassan, by the Executive Engineer for countersignature, are not generally returned to the Executive Engineer for necessary action being taken, but are sent direct to Government for sanction. The procedure adopted by the President does not admit of scrutiny and check of the estimates by higher officers of the P.W.Department, which however is essential in the interests of works. It also differs from the procedure adopted by the Presidents of District Boards in other Districts, who generally do not send such estimates to Government direct, but returns them to the Executive Engineers concerned. To safeguard Government interests and avoid duplication of correspondence, it is considered necessary that estimates for works requiring the technical scrutiny and sanction of the Superintending Engineer, the Chief

(ii) In the case of original works exceeding Rs.2000/- Chief Engineer's scrutiny before -- sanction by the District Board is insisted on.

L (11) The present proposal of the ~~District Board~~ Public Works Department is to see that estimate for works requiring technical scrutiny and -- sanction of the Superintending Engineer, the Chief Engineer or of Government should be -- returned to the Executive Engineer by the -- District Board after counter signature who is required to send it to the sanctioning authority through his official superior where -- necessary.

(12) Under the orders as they at present stand the sanctioning authority for District Board works is either the Board itself or Govt. -- according as the estimate is within or above Rs.5000/-. Neither the Superintending Engineer nor the Chief Engineer can sanction any Dt.Bd. works; they are required to scrutinise estimates for works and pass them on to the sanctioning authority concerned.

S (13) In G.O.No.228-249 S dated 8-9-26 Superintending Engineers are authorised to sanction original and repair estimates of the Public Works Department upto Rs.4000/-. (19) Returned, with compliments.

(20) 2. Orders may issue on the general lines suggested in the General Secretariat Notes. In clause (iv) of the Notes, it is stated that - "Estimates above Rs.5,000/- to be ~~sanctioned~~ scrutinised by the Chief Engineer and returned to the District Board for approval of the revised estimate and transmission to Government for sanction."

(21) It is not clear what is meant by "revised" estimate in the above clause. The word may be deleted.

(22) Estimates may also be submitted by the Chief Engineer to Government as is being done now, as there seems to be no purpose served by referring back the estimates to the Board again.

(23) 3. The Presidents of District Boards may be asked to strictly adhere to these rules, as, it is observed in the present case, that an estimate costing about Rs.9,000/- has not been sent by the President to the Chief Engineer for scrutiny as required by rules, but it has been submitted by him direct to Government.

24) The chief Engineer does not consider it necessary to send the estimates after his sanctioning to the Board. There is no object in Govt sanctioning the estimate unless the Board agrees to accept the estimate as revised by the chief Engineer. It is expedient that Govt should be aware of the views of the Board before sanction is accorded, though this may entail some delay in ~~securing~~ sanction to the estimates. I have slightly altered the procedure indicated in para 14 of the note supra & a draft may be put up adopting it & modifying the procedure laid down in the note of 5 Feb 27.

In the case of large estimates both the Dir & the financing body & the Chief as the technical expert have to be consulted. It may involve some delay but it can't be helped.

OFFICE OF THE SUPERINTENDING ENGINEER,

*Dated Shimoga, 7th March 1928.*

FROM

*Superintending Engineer,*
*Shimoga Circle,*
*SHIMOGA.*

To

John Bhore, Esq., A.M.I.C.E.,
Chief Engineer of Mysore,
B a n g a l o r e.

Sir,

I have the honour to inform you that the President District Board, Hassan, has forwarded direct to Government ~~the~~ an estimate for Rs. 9,410 for the reconstruction of the bridge at 3/15 of Manjarabad-Kodlipet road which was forwarded to him by the Executive Engineer, Hassan Division, for countersignature. The usual practice in these cases is for the President to return the estimate to the Executive Engineer, who will submit them to this office. The design and estimates will then be properly scrutinised before submission to you and the Government. The course adopted by the President of Hassan District Board in more than one instance results in the estimates, which should pass through higher officers, escaping check by the higher authority, unless the Government again refer back the estimates to this Department. This latter procedure involves duplication of the correspondence.

I therefore request that for all estimates requiring the technical scrutiny and sanction of the Superintending Engineer, the Chief Engineer or the Government, the estimates may be caused to be returned to the Executive Engineer for submission through these

these officers as is generally done by other District Boards.

I have the honour to be

Sir,

Your most obedient servant,

M. L. Narasiya

Superintending Engineer,

Shimoga Circle.
